SOURCE	25X	(1X kar	in the second

- 1. On 15 and 22 way 1951 respectively, a biplane landed at Chemnitz airfield. The planes took off again after about one hour. The landing field was serviceable. Givilian offices were housed in the former administration building as was previously observed.
- 2. Chemnitz and Zwickau airfields were unoccupied on 7 June. This was confirmed by a local resident. There were no ground personnel on the fields. At little a.m., a courier biplane took off from Chemnitz sirfield. **

25X1A **Comment. No reports have been received from other sources indicating that either of the two airfields has been occupied by an air unit.
